

DENR, PHILGUARANTEE unite to plant 300 trees

In connection with the Corporate Social Responsibility and Gender and Development thrusts of the Philippine Guarantee Corporation (PHILGUARANTEE), it establishes a partnership with the Department of Environment and Natural Resources (DENR) to participate in the tree planting activity at the La Mesa Water Reservation area in Barangay Greater Lagro, Quezon City.

With the theme “G4G: Greening for Gender Equality”, male and female representatives from the departments and offices of the Corporation on November 18, 2022, engaged in conservation efforts that will improve communal sensibilities by planting a total of 300 *sablot* saplings.

The tree planting initiative of DENR highlights the importance of the 5Ps — People, Planet, Peace, Prosperity, and Partnership. For its part, PHILGUARANTEE continuously aims to advocate environmental awareness and preservation.
